CASINO EQUIPMENT

ROULETTE EQUIPMENT

GS CLASSIC roulette wheel combines traditional mahogany aesthetics with durable precision engineering, featuring: stone-reinforced balltrack for stable performance, a maintenance-free bearing with lifetime warranty, and a premium gloss gold metal finish.

- Single-zero configuration
- Stone-reinforced balltrack
- Classic mahogany veneer
- Gloss gold finish
- Maintenance-free bearing

GS PREMIUM upgrades the CLASSIC model, with the functionality of integrated winning-number sensors for fast and reliable result recognition in all lighting conditions. Its active game-integrity protection system detects wheel tilt and immediately communicates an alert to the connected roulette display.

- Integrated winning-number sensor
- Active wheel-tilt detection
- Supports roulette balls: 14mm to 24mm
- Optional adaptive LED lighting

ROULETTE DISPLAY offers animated graphics for winning number results and statistics. Winning number recognition is fast & accurate every spin. Compatible with GS PREMIUM roulette wheel sensors or as standalone video camera recognition for other models. Available in double sided 27 or 32 inch diagonal and includes all player favorite graphical features, including hot & cold numbers.

MULTIPLIER bonus numbers offer roulette players higher payouts up-to 500 to 1 on straight-up bets. No need to adjust layout design or adjust roulette procedures.

STATISTICS analytical software is available for review of roulette results.

CASINO EQUIPMENT

ROULETTE EQUIPMENT

GRAND CRYSTAL² Electronic roulette offers sleek futuristic design,

space saving footprint and modular cabinet configurations efficiently utilizing slot floor space to generate maximum revenue. Attractive and innovative hardware, 4K 3D-graphics, HiFi audio coupled with excellent ergonomic design meet the most demanding player expectations.

DIAMOND MIX ^{unique}feature offers roulette players to win up-to **1,000 TO 1** on straight up bets or alternative choice of paytables.

CHIPSTARTM chip sorting machine quickly & accurately sorts up to 10 color/cash chips. A single dealer is able to operate roulette table improving operational efficiency & requiring minimum servicing.

Equipped with an unequalled Chip-Pre-Separator providing a full chipping rate even at high chip loads. Safe access to last remaining chips & no exposed moving parts.

CLEARBET AUDIOTM is a real-time audio enhancement solution for casino table-game monitoring, designed to help surveillance teams hear player & dealer voices more clearly in real time.

Using AI-powered noise reduction, the system minimizes disruptive casino floor background noise & improves speech clarity for roulette verbal bet disputes, player instructions, dealer announcements, suspicious behaviour and incident review.

ROULETTE EQUIPMENT

SECURITY TOOLS PRECISION INSTRUMENTS

GS LEVEL ELITE

sets new standards for balancing roulette wheels. Easy-to-use and handle, it incorporates a sophisticated, high precision spirit level and a three-point support to allow exact installation on the wheel balltrack, making regular adjustment of roulette wheels easy & precise at the casino floor.

- Precise wheel leveling by balltrack
- Spring loaded arm extension
- Compatible with standard size wheels of all manufacturers
- Simple to use and time-saving
- Precision designed, made in Austria

REFINED DESIGN & ENHANCED HANDLING

GS LEVEL UTILITY offers same precision accuracy with simpler design and cost efficiency. The easy-to-use level offers wider extension angle compatible with **wider balltrack diameters**.

Austrian-made design and manufactured precision uses the same three-point support to allow exact installation on the wheel balltrack.

PROFESSIONAL FUNCTIONALITY

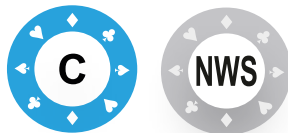

BALL VERIFIER

Enhance casino security on roulette tables with instant detection of metals inside roulette balls. Distinguish between both types of metal possibly hidden within. A perfect instrument on the gaming floor to build player confidence and resolve disputes.

POKER EQUIPMENT

CARD SHUFFLERS

DECKMATE² is players' best friend at the poker table! Removing shuffling interruptions to gameplay, improving players' safety from common cheating techniques, such as shuffle tracking, card swapping or dealer collusion.

22 SEC. shuffle time, built-in-timer to "call the clock" is an option to limit time & remove frustration of waiting for slow decisions.

POKER ROOM

i-DEAL PLUSTM

INSTANT DECK DELIVERY

i-DEAL PLUSTM machine offers maximum security on dealer-dealt poker tables. Latest technology in a sleek, low profile design safeguards from deck manipulation techniques and incorrect deck composition.

Random & independent shuffle protects casino players from manipulated deck shuffling, and when a missing, extra or swapped card is detected, the game is stopped instantly.

EXTRA SECURITY

ONE2SIXTM OTS single-deck & multi-deck continuous shuffler combines user-friendliness and state-of-the-art technology to create a premium shuffler capable of handling from one to six decks of playing cards.

OTS can be used for virtually all poker and multi-deck card games delivering perfect shuffle every time.

ONE2SIX OTSTM

CASINO EQUIPMENT

BACCARAT EQUIPMENT

BACCARAT CARDS

Purpose-built for squeeze Baccarat, our small-index playing cards allow easy player peeking while helping casinos control the cost of single-use decks. Generic cards are available from stock with no minimum order quantity, giving operators the flexibility to order exactly what their gaming tables require.

IN STOCK availability with red or blue backs in secure, cello-wrapped 8-deck mini boxes. Custom logo options are also available.

GS CARD SHREDDER^{v2}

Purpose-built for casino back-room operations, this playing card shredder destroys up to 18 decks per minute, ensuring used playing cards are thoroughly disposed of while saving valuable staff time. Automatic feeding and twin loading towers maintain a fast, continuous shredding process with minimal handling.

POWERFUL 240W motor and durable cutting blades process both paper and 100% plastic cards.

MD3TM leading the way in batch shuffling technology verifying every card being shuffled, bringing an unprecedented level of security to multi-deck table games. Counting and shuffling up to 8 decks of cards quickly and quietly, alerting the dealer to missing or added cards.

This shuffler combines its features to increase game revenue, enhance game security, and provide operational efficiencies.

BACCARAT EQUIPMENT

ELECTRONIC PRODUCTS

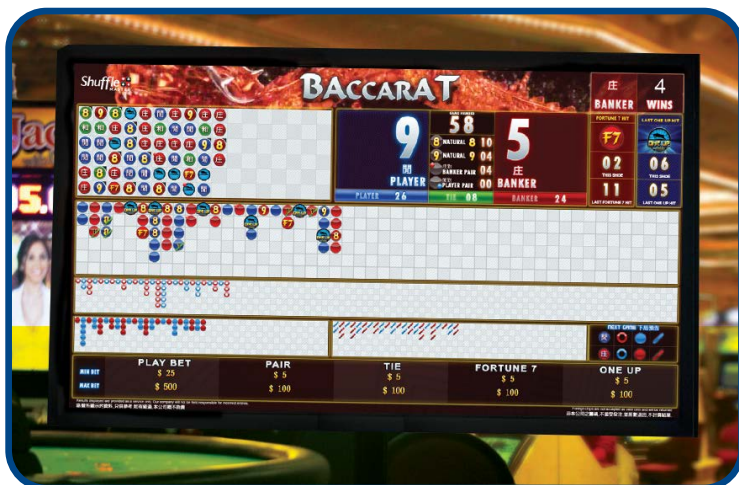

SAFE-SHOE™ prevents dealer error by eliminating possibility to overdraw or under draw cards. A stop engages on the shoe once the last card of the round is pulled to eliminate overdraw, while audible and visible alarms are triggered when cards are underdrawn.

PROVEN technology eliminates card swapping, dealer/player collusion & game manipulation, requiring no special markings, barcodes or RFID chipping.

SAFE-SHOE™ FOR BACCARAT

i-SCORE PLUS™ DISPLAY

PREMIUM GRAPHICS

i-SCORE ULTRA upgrades the Baccarat table with a vivid **27-inch**, double-sided 4K display. Independent screen control allows operators to show different content on each side simultaneously, while the embedded low-profile LED light bar highlights game outcomes and trend activity.

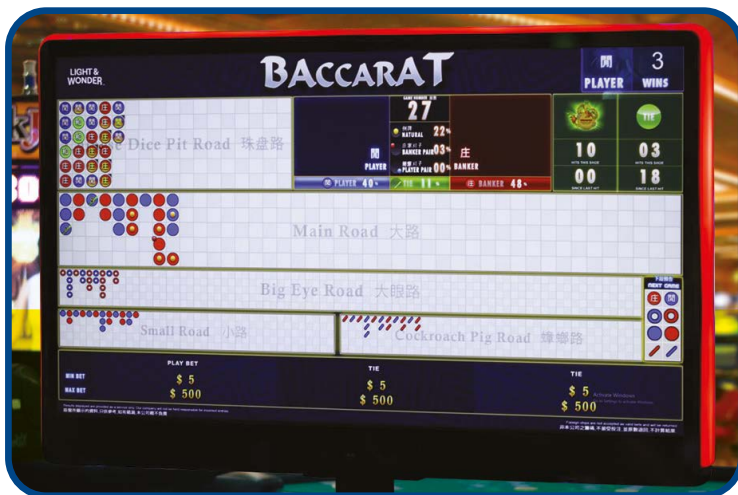

SLIM premium design delivers maximum visual impact without obstructing the table.

BACCARAT SECURITY

i-SCORE PLUS features **24-inch** Full-HD display making it even easier to attract players and display current game results and trends.

The baccarat display is designed to work seamlessly with electronic SAFE-SHOE™ to provide instantaneous baccarat game event updates without requiring manual input by the dealer.

BLACKJACK EQUIPMENT

ELECTRONIC SOLUTIONS OPERATIONAL SECURITY

SHUFFLESTAR™

BLACKJACK SHUFFLE MACHINE

offers ultimate deck integrity and uninterrupted play, without downtime for loading a shoe or shuffling cards. The sleek, flush mount, low profile of this revolutionary flat dealing shoe improves lines of sight and effortlessly delivers up to three cards per second.

ERGONOMIC shuffler is sure to improve casino operations and game play, featuring real-time card inventory, and misfeed detection to prevent loading jams.

GS CARD CHECKER

is a professional playing card inspection device designed for casino surveillance teams. It helps operators manually check playing card backs for signs of marking, damage, scratches, stains, ink irregularities, pressure marks, manufacturer defects or other suspicious visual differences that may be used for card tracking or advantage play.

INSPECT playing cards from blackjack, baccarat, poker and other live table games.

BLACKJACK DISPLAY

offers historic trends for dealer card scores. Main road shows previous dealer results lined-up in horizontal rows.

Players anticipate future dealer card scores based on their vision of the past game results. Displays total statistics of the shoe or shuffler gaming session.

ONLINE STUDIO

LIVE BROADCAST PLAYING CARDS & ACCESSORIES

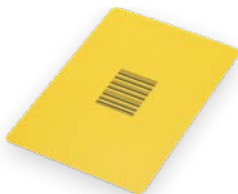

BARCODE playing card decks are manufactured from premium materials, fully certified and tested for seamless compatibility with barcode scanners.

PROVEN for reliable scanning across numerous online studios, these cards ensure accuracy and efficiency in live dealer casino environments.

CUSTOMIZE your card face design with unique barcodes, or opt for specialized custom decks tailored for non-traditional card games, offering limitless possibilities for bespoke gaming solutions.

SAMPLE decks are available for testing and studio setup, ensuring seamless integration with your system.
